PROFESSIONAL SUMMARY

Passionate Computer Science Engineering student with a strong foundation in programming, data structures, and web development. Proficient in web development with hands-on experience from internships and academic projects. Skilled in problem-solving and application development. Continuously building real-world solutions while expanding knowledge in emerging technologies.

EDUCATION

Rajiv Gandhi College of Engineering and Technology	2023 – 2027
<i>B.Tech, Computer Science and Engineering</i>	CGPA: 8.65
Ideal Higher Secondary School	
<i>Higher Secondary Certificate (HSC)</i>	2023 82%
<i>Secondary School Leaving Certificate (SSLC)</i>	2021

TECHNICAL SKILLS

Programming Languages: HTML, CSS, JavaScript, Java, Python

Frameworks & Libraries: React, Node.js

Databases: MySQL

Tools & Technologies: Git, GitHub, Canva, Figma, Stitch

Areas of Interest: Artificial Intelligence, Cloud Computing, Web Development, Software Development, App Development

PROJECTS

Women Safety Mobile Application Oct 2025

- Developed a women safety mobile application with location tracking and Google Maps integration to classify risk zones.
- Role: Developer — contributed to the design and implementation of the application.

Password Manager (Intern Project)

- Worked on the development of a Password Manager application, covering UI design and frontend implementation.
- Role: Developer — contributed to the implementation of role-based access control (RBAC) and user permission management.

GST Portal (Intern Project)

- Assisted in the development of a GST Portal, including analysis, testing, and documentation of features.
- Role: Developer — contributed to fetching and integrating required GST information from government portals, along with data analysis and testing.

Smart India Hackathon (SIH) 2026 | INNOVEXAA

Sep 2026

- SIH Nominee:** Selected through the college's internal hackathon to represent the institution at **Smart India Hackathon (SIH) 2026**.
- Worked on **SIH Problem Statement 26033**, focused on reducing the impact of multiple intermediaries on farmers' earnings and consumer prices.

- Developed **INNOVEXAA**, an AI-powered agricultural marketplace connecting farmers/FPOs with consumers and bulk buyers, featuring demand forecasting, supply intelligence, quality verification, digital produce passports, and spoilage prediction.
- Contributed to the solution using **React.js, TypeScript, Node.js/FastAPI, Python, AI/ML, PostgreSQL/MongoDB, Maps API, Docker, and GitHub Actions**, while collaborating with a **6-member team** to design, prototype, and pitch the solution.

INTERNSHIP EXPERIENCE

Front-End Development Intern

Cognifyz Technologies

Nov 2025 – Dec 2025

- Developed responsive and interactive web applications using HTML, CSS, JavaScript, and Bootstrap, ensuring cross-device compatibility.
- Implemented API integration, client-side form validation, and dynamic UI components to enhance user experience.

Front-End Development Intern

Shinecraft Technologies

Mar 2026 – Aug 2026

- Contributed to frontend development, functional testing, and technical documentation for live client projects.
- Built and consumed RESTful APIs, connecting React front-end components with MySQL databases to support live client applications.
- Implemented role-based access control (RBAC) and user permission management to secure access across application modules.
- Worked with React and Node.js to develop and integrate application features as part of ongoing client project delivery.

CERTIFICATES

- Python for Data Science (Elite Certification) | NPTEL (SWAYAM), IIT Kharagpur — Jul – Aug 2025
- Cloud Computing (Elite Certification) | NPTEL (SWAYAM), IIT Kharagpur — Jan – Apr 2026
- AWS Technical Essentials | AWS SkillBuilder — Oct 2026
- Python Using AI Workshop — AI for Techies 2026
